Style is pastels and neons.
Design is isometric, modular and simple

Story - interactive cv

This is my story.
Born in London, raised on the island of borneo.
Studied in Canada, moved to London to work.

Job 1 - set up and ran a market stall in Camden Lock Markets on weekends, sold stock door to door to shops on week days.
Job 2 - worked in fashion retail as a shop assistant
Job 3 - became a stock controller, but also opened and closed, operated the till and did watch servicing (changing batteries, adjusting watch straps)
Job 4 - Became stock controller at press office to manage sample collections.
Became press officer - liaising with press, getting samples to shoots, issuing press releases, organizing and taking part in events. Networking with press
Job 5 - was headhunted by a fashion pr agency to become account manager for 5 different fashion brands.
Job 6 - became a mother. Raised 3 kids whilst doing admin, project and studio managing at gamoola
Job 7 - became digital lead. Liaising with clients, building POCs, project managing, managing website, creating ooutreach pages and DEO
Job 8 - freelance SEO and webpage design for client
Now in search of job 9!

Interactive Journey

Island world with 4 islands.

Islands abstract and simple representation of:

1. Borneo
2. London
3. Canada
4. Europe

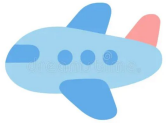

Parchment card appears (see image reference) on left of screen with story:
Born in London, raised in Borneo, Educated in Canada, Living in London

Plane moves from London, to Borneo, to Canada

Next Button appears

Screen 2

Determination and Logistics Zone
Market stall, shop to shop selling
Retail assistant
Stock controller

Simple sorting game.
Managing stock levels and keeping track of what was held.

Screen 3

Networking Reports and Press cuttings Zone
Market stall, shop to shop selling
Retail assistant
Stock controller

Press office

For press office samples, knowing where each sample was, documenting shoot dates for different items to ensure samples were available for all editorial requests.
Funny anecdote about sample hat perhaps needed by 2 different editors at the same time. Ensured hat was collected straight after it was shot and flown to other editors shoot. Neither was used, haha! Funny, not funny. (simple game?)

Screen 4

Leveling up zone
Gamoola

Admin, project management, prototyping, seo, websites

Development of digital skills? Over 50 github projects.
Learning different technologies and skills
Collaborating with designers, developers and clients
Experimenting

Portfolio: lotus-pocus-portfolio.vercel.app | GitHub: github.com/lotus-pocus | LinkedIn: linkedin.com/in/lotus-tay

Professional Profile

Creative Developer with hands-on experience in React, JavaScript, interactive web experiences and rapid prototyping. Working within a creative technology studio, I collaborate with designers and developers to explore ideas, develop working prototypes and deliver digital experiences. I also independently design, build and launch interactive projects, with a particular interest in creative experimentation, user experience and finding practical solutions to unusual challenges.

Core Skills

Creative Development	Technologies	Collaboration
• Interactive Prototyping • Responsive UI Development • UX & Usability Testing • Component-based architecture • AI-Assisted Experimentation • VR Testing & Deployment	• React, JavaScript, HTML, CSS • Vite, Sanity, Supabase • MapLibre, Git, GitHub • Netlify, Vercel, Directus • ChatGPT, Claude Code, Copilot	• Working with designers • Client Communication • Cross-Platform Delivery • Requirements Documentation • Iterative development

Selected Creative Projects

Grown On Trees - Independent Creative Development Project
React | Vite | JavaScript | Sanity CMS | MapLibre GL JS | Netlify

- Independently designed, developed and launched a daily four-round puzzle game combining geography, flags, numerical and word-based challenges.
- Built reusable React components, interactive puzzle mechanics, scoring systems and a Sanity-powered content management workflow.
- Integrated interactive mapping with a static fallback for improved reliability across devices.
- Developed player analytics, shareable results and responsive interfaces, iterating through user testing and feedback.

Live: https://grownontrees.gg/

Photo-Panic
React | Supabase | Real-Time Multiplayer

- Designed and developed a multiplayer photo party game with responsive host and player interfaces.
- Implemented realtime gameplay and iteratively improved mobile reliability, image handling and the player experience.

Host Experience Player Experience
**To try it, open the host link on a computer and join as a player on your phone.*

Professional Experience

Freelance Frontend Developer
Freelance Client: Channoi

- Designed and developed a custom interactive map using HTML, CSS and JavaScript, deployed via Netlify and integrated into the client's existing website.
- Repurposed website content, implemented on-page SEO improvements and monitored performance using Google Analytics.
- Worked directly with the client to gather requirements, iterate on feedback and deliver the final solution.

Gamoola Ltd
Digital Operations Manager
February 2017 – Present
Creative technology studio specialising in interactive experiences, web applications and digital products.

Key achievements:

- Delivered digital projects from concept through to launch, coordinating designers, developers and clients throughout production.
- Designed and developed React-based campaign and outreach pages for integration with the company's WordPress website
- Rapidly prototyped interactive web applications and proof-of-concepts (POCs) using React, JavaScript and Supabase to validate ideas before full development.
- Produced project documentation, proposals, presentations and technical specifications.
- Supported VR development and delivery through headset configuration, release channel management and hands-on testing of immersive applications.
- Managed studio operations, including project scheduling, budgets, resource coordination and client delivery.

Previous Experience

Brower Lewis PR
Account Manager

- Managed fashion and lifestyle client accounts, campaigns and events.
- Built long-term client relationships and produced media communications.

Giorgio Armani
Press Officer

- Managed media and stylist relationships while supporting international fashion events, including Milan Fashion Week.

Education
